The Budget and Fiscal Management Division of INDOT will be presenting INDOT's annual Statewide Transportation Improvement Program (STIP) for fiscal years 2005 – 07 for public comment. The STIP consists of our transportation plans for the next three years, and includes road and bridge preservation projects as well as major highway improvements and new construction projects. Copies of the STIP document will be available at each of the six meetings, and representatives will be available to answer questions about the document as well. Come see what's happening in your area and around the state for the next three years by attending one of these district meetings!
